## **Ana Mendieta's Films**

When: Opens Friday, February 5, 6–8pm

Where: Galerie Lelong (528 West 26th Street, Chelsea, Manhattan)

For those who can't make it to Minneapolis or Fort Lauderdale to see the incredible-sounding exhibition of Ana Mendieta's films, this show at Galerie Lelong is the next best thing. Featuring 15 films by the artist, nine of them never seen before, the exhibition will help bring to light an under-explored aspect of Mendieta's practice. Highlights include her first film, made when she was a 22-year-old student at the University of Iowa, and an X-ray film from around 1975 that shows the interior motion of her skull (also the only piece with sound). All the works recently underwent meticulous transfers from their original formats (Super 8 and others) to high-definition digital media.
